

# The Time is Getting Short for Stock at 10¢ a Share IN THE American Oil Co.

This Company Has Organized for the Purpose of Producing Oil and Not Solely to Sell Stock.

Incorporated under the laws of Montana, July 20, 1916. Stock fully paid and non-assessable, each share a vote. Each shareholder shares in every acre and every well, and all future lands acquired by the company.

This company owns its own equipment and no work let by contract, thus getting better results. We are acquiring land wherever it can be secured of the northwest. This means something.

We have 2,840 acres located in proven oil districts at Greybull, at Torchlight and at Elk Basin.

Our first well is down 1,200 feet and working steadily. It is located only a few hundred feet from Mid-West property, where there are over 40 producing oil wells, at Greybull. There is a large refinery at Greybull and another is under construction. Greybull is the center of the oil industry but only in proven oil fields and not prospects.

Two New Rigs Start Work as Soon as Weather Will Permit.

Mid-West stock first sold for 10 cents a share. It is now worth \$105.00 a share and going up. Our stock is selling at 10 cents a share. It will soon go to 40 cents, and at an early date. Don't wait. It means money saved by buying now.

Either come to the office or write or wire your application for stock you desire. Cash with your application. But do not delay. Get Busy. Do it now.

Be Sure You Come to the Right Office. It Means the Truth and Facts If You Do.

### BERNSTORFF AND PARTY LEAVING

Former German Ambassador  
Arrives at Hoboken on Special—Poses for Photographers.

CAREFUL GUARD KEPT

Over Four Hundred Passengers Booked on the Frederick VIII—Distinguished Men Abroad.

Hoboken, N. Y., Feb. 14.—The special train carrying Count von Bernstorff, formerly German ambassador to the United States and his suite from Washington, arrived at the railroad terminal here at 6:58 a. m. The train was immediately surrounded by a guard of Hoboken police and government secret service men and no one was permitted to approach without credentials. Count von Bernstorff and the members of his party remained in their staterooms for half an hour after the train stopped, about two blocks from the dock of the Scandinavian-American Line steamship Frederick VIII, on which they will sail for Copenhagen at 2 o'clock this afternoon.

Poses for Newspapersmen.  
Then the count and countless surprised the group of newspapersmen, photographers and moving picture operators who were permitted to pass the police lines by appearing on the rear platform of their car. The former ambassador smilingly acknowledged the greetings of several persons he knew and for five minutes posed good-naturedly for the benefit of the cameras.

Although he exchanged informal remarks the count refused to submit to an interview.

At 7:37 o'clock the count and Countess von Bernstorff stepped into a closed automobile and were taken to the pier. They had breakfast with several of their immediate friends on board the Frederick VIII.

Train Carefully Guarded.  
The train made no stops between Washington and Hoboken, except pauses necessary for switching. The nineteen city blocks between the Erie yard at Weehawken and the end of the journey were picketed with police guards. The route from the train to the pier lay between lines of police men and detectives and a force of 150 inspectors from the neutrality squad of the collector of the port was on duty at the pier. A New York police boat pushed its way up and down among the ice floes in the Hudson river in front of the Scandinavian-American docks and two smaller police launches guarded the north and south sides of the pier. Collector Malone of the port of New York with ten officials from the custom house spent the night on the Frederick VIII ready to receive the former ambassador when he came aboard.

In addition to the Count and Countess von Bernstorff, the Frederick VIII will carry high officials of the German embassy and a number of consular officers from different parts of the country who have availed themselves of this opportunity to get safely home. Among the latter is Dr. Karl Duisberg of the San Francisco consulate.

Ship Carries 400 Passengers.  
The Frederick VIII will carry 400 passengers in her first, and 250 in her second class cabins, the largest number she ever booked. Among them is the Baroness Zwielinek, wife of Baron Erich Zwielinek, who was designated charge d'affaires of the Austro-Hungarian embassy after the dismissal of Ambassador Dumba.

Among them is the Baroness Zwielinek, wife of Baron Erich Zwielinek, who was designated charge d'affaires of the Austro-Hungarian embassy after the dismissal of Ambassador Dumba.

Crack Brings a Letter.  
To an untoward incident which occurred as the ambassador stepped from the automobile to the pier the police attached little importance. A young man tried to approach the party and was seized by detectives, who hurried him to police headquarters.

He said he was Alfred Hopkins, 19 years old, of New York City, and had been given a letter by a man in that city who instructed him to hand it to the ambassador. A letter was found on him, together with a horoscope and writings of astrology and astronomy. The police took possession of these and telephoned for Hopkins' relatives to come to Hoboken. The prisoner refused to tell the name of the man who gave him the letter. He said that his sole object in coming here was to deliver the letter.

Von Igel Bond Lifted.  
New York, Feb. 14.—Acting on instructions from the state department, a request was made to Federal Judge Hand here today by United States District Attorney H. Snowden Marshall for cancellation of the \$20,000 bail bond of Wolf von Igel, under indictments charging him with participation in a plot to destroy the Welland canal.

The request was granted and the defendant will sail with Ambassador von Bernstorff.

Von Igel, who was secretary to Captain von Papen, former military attaché at the German embassy, has never pleaded to the indictments.

Unusual Precautions Taken.  
Unusual precautions are being taken to guard the members of the party during their stay here. The steamer will not stop at quarantine but will enter the harbor and naval patrol boats will escort her to an anchorage near shore.

### DISCIPLINE STARTED AT HIGH SCHOOL BY BEESON

Rigid rules and regulations were placed in operation this morning at the Ogden High school by Principal J. E. Beeson, for the conduct of students and others while in the school building or on the premises. They were introduced at a special assembly and each student present was given a copy of the admonition to read it carefully, give their parents the same privilege and to preserve it for frequent reference.

The rules were recently compiled with a view to obtaining better discipline at the city's school of higher learning and are as follows:

**Rule for Suspension.**  
Suspension for any reason means five days as a minimum, at discretion of Principal.

**Rule on Tobacco and Liquor.**  
The use of tobacco in any form or intoxicating liquor of any kind is at all times prohibited in the High school building, or on the premises adjacent thereto, and this means sidewalks and streets or places surrounding said High school property.

All persons are forbidden to come

### High school premises who have been drinking an intoxicating liquor. Penalty for violation is suspension, with recommendation to Board of Education that it be permanent.

**Rule for Absence and Tardiness.**  
Any pupil who is absent from any class or classes, advisory, study hall, or military drill twice in a six week term, without first having been excused by the office, or in case that is impossible, who has not informed the office by phone or letter of such absence by parent in advance of return to school, will be barred from school, until parent or guardian comes to re-instate said pupil. Second offense in a term of six weeks means suspension. Two tardies count as one absence.

**Rule on Moving to Classes.**  
Pupils must be in their seats at 8:50 a. m. and 1:05 p. m., and must not congregate in the halls before these times. On coming to school in the morning or at noon they must go directly to class room or study hall where they belong in first or fifth periods. At other times five minutes are given for passing of classes, and pupils must keep passing promptly and not stop in hallway except to get drink at fountains, and then to move on promptly.

No visiting is allowed. All must be in their seats when the five-minute bell rings.

**Rule of Being in Halls During Class Periods.**  
No pupil is to leave any class or study hall or advisory period without a written excuse from the teacher in charge.

Any pupil who may be excused for any period and comes to school before the end of that period shall go at once to the study hall. Failure to do this will revoke the excuse.

There shall be no "visiting" about the school, at any place, at any time during school hours.

**Rule on Obeying Requests and Orders of Teachers or Janitors.**  
Teachers and janitors are in authority in or about the High school, and are entitled to courteous treatment on part of pupils.

An pupil refusing to promptly obey any order of anyone in authority, or who is discourteous to them, will be subject to severe discipline by the Principal.

**Rule on Selling Used Books.**  
No student is permitted to sell second-hand books, not even his own. All second-hand books to be sold must be left with the teacher in type writing room, bearing name of seller and book and price named, and when sold the name of book and purchaser will be kept by the teacher, and money will be paid to the owner.

No pupil is permitted to leave the building during school hours without special permission from the office.

### VIOLENT COUNTER ATTACKS MADE

But Russians Fail to Recover Ground Captured by Teutons.

Berlin, Feb. 13, wireless to Sayville.—Details of the violent engagements on Sunday night north of the Ancre on the Somme front are given by the military critic of the Overseas News Agency. Writing under date of February 12, he says:

"On Sunday night violent engagements took place between Serre and the Ancre, where six attacks by the British were repulsed, the assailants suffering heavy losses. The British in the afternoon opened an extremely heavy fire on the German positions north of the Ancre, this increasing to the most violent drum fire at nightfall. One trench near Serre was evacuated by the Germans during this preparatory fire without the British being aware of the movement.

Between 9 and 10 p. m. the first of the British contingents initiated the attack over the snow-covered ground in the vicinity of Beaymont. They were repulsed singularly. Two additional attacks at the same point also failed.

Toward evening the British launched their fourth attack east of Beaymont. This was made by a battalion supported by numerous machine guns. It was followed by violent hand-to-hand fighting during which one officer and more than 30 men were taken

prisoner by the Germans. The attack was a failure.

"The British attempted two additional attacks with strong forces in this district. Soon after midnight they succeeded in penetrating German trenches buried in snow, after furious hand grenade fighting, but were ejected by counter attacks after sustaining heavy casualties.

"At 4 a. m. the British made their sixth and last attack of the night, this breaking down, however, under the German curtain of fire."

### FINE FOR RHEUMATISM! Musterole Loosens Up Those Stiff Joints—Drives Out Pain
